DETAILED ACTION

Allowable Subject Matter

1. Claims 1-32 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter.

Claims 1, 9, 17, and 25 recite, inter alia, a storage processing device to "virtualize a storage unit and to do migration of data between first and second storage units whether the at least on host and the at least two storage devices are directly connected to the storage processing device or are coupled through the at least one switch", the storage processing device comprising "an input/output module including processors to receive, operate on, and transmit network traffic and a control module coupled to said input/output module, said input/output module and said control module being configured to interactively perform data virtualization and migration". Prior art of record do not teach or suggest, either alone or in combination, the aforementioned limitation, nor would it be obvious to modify those references to include such limitation. Examiner notes that applicant's arguments filed 7/19/2007 regarding the above limitations are persuasive.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Scott Sun whose telephone number is (571) 272-2675.
